

NOAH GAFFNEY

New Rochelle, NY | NoahDGaffney@gmail.com | (917) 855-6205 | NoahGaffney.me

SUMMARY

IT professional with a B.S. in Computer Science and experience supporting school district technology, managing accounts and devices, and diagnosing hardware and network issues. Close approximately 70 ServiceNow tickets per week; bring additional experience in Linux, virtualization, and software development.

TECHNICAL SKILLS

IT support: ServiceNow, Google Admin, Microsoft Azure, Microsoft Intune, Active Directory, BitLocker, Windows, ChromeOS, Dell Latitude, Chromebook enrollment and repair

Systems and development: Linux, Proxmox, Docker, Nginx, DNS, SSH, PowerShell troubleshooting, Git, React, Flutter, TypeScript, Node.js, PostgreSQL, Java, C++, Swift

PROFESSIONAL EXPERIENCE

Network Engineer | Insight Global

Assigned through LHRIC to New Rochelle School District | Mar 2026 - Present

- Resolve approximately 70 ServiceNow tickets per week while rotating among assignments across an 11-school district, supporting staff and students with devices, accounts, printers, and classroom technology.
- Enroll and disable Chromebooks, move devices between organizational units, and manage user accounts and password resets through Google Admin.
- Support Dell Latitude laptops using Microsoft Azure for device lookups, enrollment, account issues, and BitLocker recovery keys; check device status and enrollment in Intune and manage accounts in Active Directory.
- Personally enrolled 800 Chromebooks during a team deployment, coordinating with a coworker responsible for asset tagging and protective cases; updated approximately 30 iPads.
- Diagnose Windows connectivity and DNS issues using ping, ipconfig, DNS cache resets, and nslookup; troubleshoot Chromebook hardware and classroom displays.
- Identified a PowerShell printer-script flaw that removed USB printers during network-printer cleanup.

Service Technician | Micro Center

Yonkers, NY | Mar 2025 - Mar 2026

- Diagnosed and repaired PC hardware and Windows software issues; performed upgrades, data transfers, and operating system reinstalls, explaining findings and repair options to customers.

Previously General Sales Associate, Micro Center | Sep 2024 - Mar 2025

Software Development Intern | The Difference

New York, NY | Jun 2023 - Mar 2024

- Developed and maintained a Flutter mobile application, incorporating user feedback and collaborating on interface improvements to improve usability.

TECHNICAL PROJECTS

- **FitFest | fitfest.app**: Built and self-hosted a full-stack web application with a TypeScript/Node.js backend and PostgreSQL database. Configured frontend, backend, and database services with Docker Compose and served the frontend through Nginx.
- **Homelab**: Built and managed Proxmox virtual machines and containers, Linux services, and NAS storage; configured Pi-hole DNS filtering and Prometheus/Grafana monitoring.
- **Portfolio | NoahGaffney.me**: Built and deployed a React site using Docker, Nginx, and Cloudflare Tunnel.

EDUCATION

SUNY New Paltz | Bachelor of Science in Computer Science | May 2024
